

Noah has been showing off houses to potential buyers every day for the past two weeks and has been stressed out. He feels like he never has free time to spend with his wife, and worries he will never be able to have kids because of this.

Noah's wife notices how often Noah spends with work and other obligations and decides that she should look for a way for him to fix his time management issues.

While browsing the internet Noah's wife finds an app called PlanMe that focused on helping one manage their time.

She shows him the app and they talk about how it could change his schedule to open free time, so he decides to give it a try.

Busy	<del>Busy</del>	Free	Busy	<del>Busy</del>	Free	Busy
3	9	10	11	12	13	
Busy	Busy	Busy	Busy	Busy	Busy	
16	17	18	19	20		
Free	Free	Free	Free	Free	Free	
23	24	25	26	27		
Free	Free	Free	Free	Free	Free	
Free	Free	Free	Free	Free	Free	

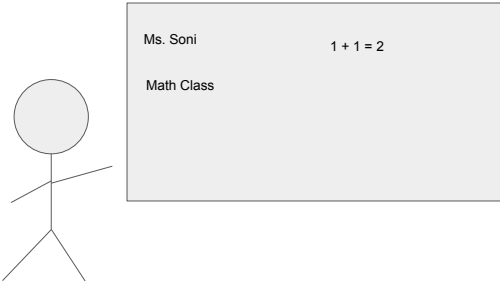

Noah starts using the app and by adding all of his appointments he immediately notices that he has been wasting time and scheduling meetings at inconvenient times. He immediately reschedules all of his meetings to more efficient times.

Due to the PlanMe app Noah is finally able to manage all of his time to Utilize all of his unused time with his wife and now feels like he is ready to start a family!

# PlanMe Storyboard

By: Michael Yang

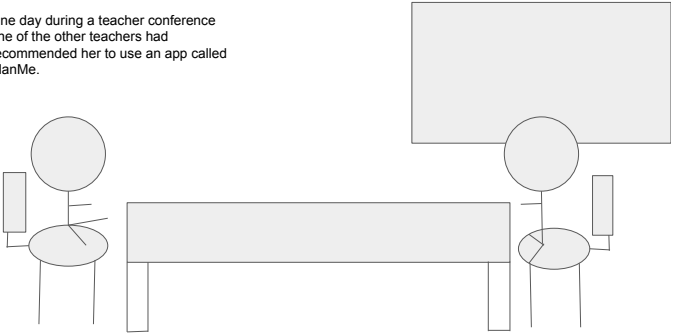

Ms. Soni is a math teacher teaching at a high school. She is the newest math director and in charge of checking other math teachers to see what level of math they should teach students. She has a busy day of teaching, planning, picking up her kids, cook, clean, and many more.

She spends most of her nights writing out plans for her class and it stresses her out as when she makes plans to do things it never works out.

One day during a teacher conference one of the other teachers had recommended her to use an app called PlanMe.

When Ms. Soni heard of the PlanMe app she had thought of a regular planner app that would be like the rest. So she decided not to use it or download it for the time being.

After a long day of working, grading, and planning Ms. Soni finally decided to use the PlanMe app.

Just after a few days she got use to the app and loved it more and more getting better at planning.

After using the PlanMe app Ms. Soni has been able to spend more time with her kids and not being off track or forgetting anything that she needs.

Joan is a new teacher, habing recently gotten her certification from a teacher placement agency. This is her first year of teaching. She is starting to get the hang of things more, but also now is realizing how much she needs to organize her days and keep track of things

By:Andriani Perez

# STRESS

Joan's after school is drained and full of stress. She wants to work out and explore other passions but she can not manage her time. She prioritizes to grade students work.

While in bed, she scrolls through reddit and finds an ad for PlanMe and decides to scroll through the comments and see if she should download it.

She decides to download the app and looks into it.

Joan notices that she has a lot more time to balance her free time. She starts going to the gym and takes up painting. She feels her mental health improving. She now goes to class and is more alively.

With all the improvement she has felt she decides to tell her students to download the app. The students grades in return also improve.

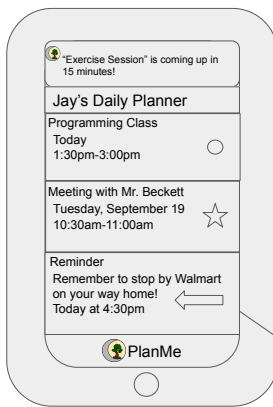

Jay Anderson is a very busy young man. Between work, meetings, school for a master's degree, and running errands, he often finds himself too busy and stressed out with no down time aside from eating and sleeping.

After spending months trying to keep up with all of his responsibilities, Jay decided to search for a quick and easy way to plan out his daily routine and discovered PlanMe.

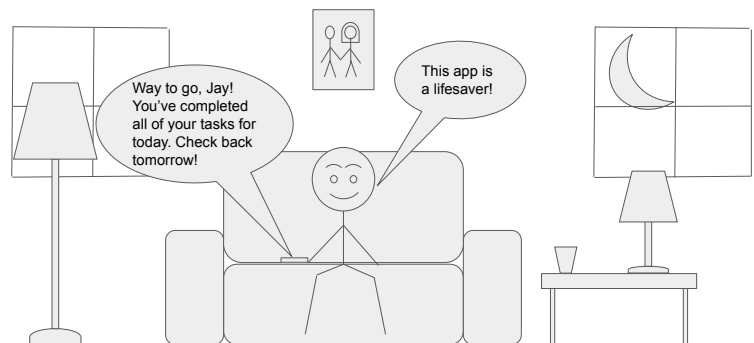

Using PlanMe, Jay was able to schedule, plan, and keep track of his busy schedule. Not only could he set times for important upcoming events, but he would also get notifications periodically to help him stay on top of the things he needs to do.

The more Jay uses the PlanMe app, the more the app becomes accustomed to his unique routine, and the more it is able to help him keep track of his schedule.

Now, Jay is able to better manage his time at work and school, which relieves a lot of his stress and allows him to work quicker and more efficiently without feeling rushed.

Thanks to the PlanMe app, Jay can work faster, get errands done quicker, and have more time to himself at home. This balanced lifestyle helps Jay to be a happier, healthier person.
